

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. FROM THE ACADEMY [LONDON], 14 MARCH, 1885.

We have received No. XVI. of Mr. Wm. Griswold's well-known "Q. P. Indexes"—an index to fourteen leading British monthlies and quarterlies for the years 1882-4. The plan on which it is constructed is novel, and, for its special purpose, really admirable. In the first place there is a reference table, consisting of a list of the periodicals indexed, with numbers corresponding to the several monthly or quarterly issues; for example, the monthly parts of *Blackwood* published during the three years are numbered 1-36, those of the *Contemporary* 37-72, and so on. Then follows an alphabetical index of authors, each author's name being consecutively numbered, and followed by the numbers indicating the periodicals in which his articles appeared and the dates of publication. Lastly, there is an index of subjects, in which figures are used to indicate the names of authors and the magazines in which they have written. Thus, in the first index we find: "19. Arnold, Matthew, 126, 249, 252, 255, 260-1, 272," which informs us that articles by Mr. Arnold may be found in the *Fortnightly* for June 1882, the *Nineteenth Century* for May 1882, &c. Turning to the entry "Culture" in the index of subjects, we have "255 by 19," which, on reference to the key, we find to mean that an article on this subject by Mr. Arnold appeared in the *Nineteenth Century* for November 1882. A good deal of additional information is given by means of typographical devices which take up no room and suggest their meaning at a glance. The entire Index occupies only thirty-six octavo pages.

Price, \$1 (4s). Address: Q. P. Index, Bangor, Maine, or Trubner & Co., London.

The Q. P. Indexes: "Each of which," according to "The Nation," "is an apostle of the higher learning."—Of the **Index to Essays** (No. 13), Dr. S. A. Allibone says "the plan is excellent," and "The Oracle," (London), "It supplies a want that has long been felt and often expressed; and though the present production does not pretend to completeness, we perceive that the works included, some 700 or 800, have been well selected, giving a broad but desirable interpretation to the word 'Essays.' . . Examination shows it to be invaluable."—"WITHIN the space of 56 pages, upwards of 2000 references are given to the most important essays. . . The mode of arrangement is simple and the index will prove of great service to literary workers."—*The Bookseller* (London), 4, 10, 1883.—WE HAVE received No. 13 of the Q. P. Indexes," by W: M. Griswold, A. B., published at Bangor, relating to history, biography, literature, society, and travel, contained in collections of essays. We have spoken before of the admirable work done in these indexes, and we only hope that the present issue may be so favorably received that the ENLARGED edition, conditional on public favor, may follow.—*Christian Register*, 13, 12, 1883. A SERIES of works for the projection and execution of which Mr. Griswold, who has made it his special business, deserves the thanks of every student and reader. The character of the present number of the series [INDEX TO ESSAYS] is fairly well represented by its title. There are hosts of articles of great value on particular subjects inclosed in volumes of essays and miscellaneous writings, which are practically inaccessible because the general title of the volume gives no clue to what is in it. The present index gives the key to the subjects within its scope as represented in 799 volumes by different authors. The publisher HOPES IN TIME TO IMPROVE UPON IT AND ENLARGE IT—that is, to bring other books into view.—*Popular Science Monthly*, Feb., 1884. (Price, \$2.)

Autoren-und Sachregister der Deutschen Rundschau

I—XXIX Band. Von W: M. Griswold, A. B. (Harvard), Assistant-Bibliothekar in der Nationalbibliothek der Vereinigten Staaten (Library of Congress) zu Washington. Bangor, Maine, Verlag von Q. P. Index. Berlin: Gebrüder PAETEL. 1882. PREIS 4 Mk.

Es wird unsern Lesern angenehm sein, zu erfahren, dass ein Autoren- und Sachregister der "Deutschen Rundschau" erschienen, und sie werden einigermaßen staunen, wenn wir hinzufügen, dass es uns aus Amerika zugekommen ist. Wir Deutschen sind im Ganzen kein indexmachendes Volk. Vieles zwar hat sich in dieser Hinsicht gebessert, seit Carlyle unter der Vorbereitung seiner Geschichte Friedrich's d. Gr. ausrief: "Bücher, denen ein Register abgeht, sind ein peinlich Ding." Aber dennoch gibt es noch immer eine Menge höchst werthvoller, historischer und anderer deutscher Werke, durch deren Bände man sich mühsam durcharbeiten muss, weil ihnen das Register fehlt. Man kann Tage verlieren, wenn man irgend eine Stelle darin zu suchen hat, und vielleicht findet man sie noch nicht einmal. Wie gut begreift man in einer solchen Stimmung, was Lord Campbell, Oberrichter von England,—übrigens kein blutdürstiger Mann—einmal sagte: "dass es ihm das grösste Vergnügen machen würde, jeden Autor zum Stränge zu verurtheilen, der ein Buch ohne Register veröffentlicht." Einer solchen Sentenz ist die "Deutsche Rundschau" glücklich entgangen, Dank der Bemühung des amerikanischen Autors, der seine Arbeit nicht nur in ausgezeichneter, sondern auch in einer für uns höchst verbindlichen Weise gethan hat. Mr. Griswold, der durch seine Register zu den leitenden amerikanischen Zeitschriften—"Nation," "Atlantic," "International Review," "Lippincott's," "Scribner's"—sich einen Namen in Amerika gemacht—kündigte sein Register zu der unsrigen mit den Worten John Morley's an: "Des Deutschen unkundig sein," heisst, ohne einen der literarischen Sinne sein." Wir acceptiren das der deutschen Literatur gemachte Compliment in aller Bescheidenheit, soweit unsere Zeitschrift in Frage kommt; aber wir können es in der That nicht hoch genug schätzen, dass uns von jenseits des atlantischen Oceans, aus dem grossen Lande, mit welchem so viele materielle sowohl als geistige Interessen uns verbinden, ein solches Zeichen der Anerkennung wird. Und nicht das allein. Herrn Griswold's Arbeit ist ein Muster von Fleiss und Genauigkeit, ein ungemein nützliches nicht nur, sondern in seiner Art ganz kleines Werk, welches bei dem denkbar geringsten Umfang das fast Unglaubliche leistet. Schläge man das Register auf, wo man wolle; es wird uns zuverlässig und ohne die Möglichkeit eines Irrthums führen. Indem sich äusserste Räumersparniss mit der grössten Deutlichkeit verbindet, ist es möglich geworden, den Inhalt von 14,000 Seiten auf 13 Seiten, jede zu drei Columnen, vollständig zu verzeichnen.

Diejenigen Privat- und öffentlichen Bibliotheken, in welchen unsere Zeitschrift ein Stelle gefunden hat, werden eines solchen Hilfsmittels bei Benützung derselben künftig nicht entbehren wollen; und wenn es uns nicht ziemt, mehr zur Empfehlung einer Publication zu sagen, welche, wie sie nun einmal ist, einen integrierenden Theil der "Deutschen Rundschau" bildet, so dürfen wir uns vielleicht einen Satz aneignen, welchen, bei der Besprechung des ihr gewidmeten "Index," unsere amerikanische Collegin, das "Atlantic Monthly," aussprach: "Sicherlich, bis eine Machine erfunden ist, durch welche der Band, welchen wir gebrauchen, vom Bücherbrett herabspringt und seinen Platz auf unserem Tisch nimmt, offen bei der gewünschten Seite, können wir schwerlich mehr verlangen, als dieses Register."—DEUTSCHE RUNDschau, October, 1882.

AUS PETZOLDT'S "ANZEIGER," October, 1882.

Q. P. INDEXES, Nr. VIII. REGISTER DER DEUTSCHEN RUNDschau, (etc.) It. Nr. IX. GENERAL-AUTOR-UND SACHREGISTER ZU ZEITSCHRIFTEN MEIST HISTORISCHEN INHALTS, UND ZWAR: DIE HISTORISCHE ZEITSCHRIFT. UNSERE ZEIT. DAS HISTORISCHE TASCHENBUCH:—von Demselben. gr. 8°. 1Bl. 34S. [PREIS 12 MK.]

Die wahrhaft minutiöse Genauigkeit u. Sorgfalt, welche der Verf. ohne Zweifel mit grossem Zeit- u. Mühaufwande, seinen Registrirungen gewidmet hat, ist wirklich bewundernswerth: Arabische u. Römische Zahlen, grosse Buchstaben u. Cursivschrift u. ausserdem 13 verschiedene Zeichen hat der Verf. zu Hilfe genommen, um den Standort u. die verschiedenen Beziehungen der registrirten Artikel—ob sie eigene Arbeiten der bezeichneten Schriftsteller oder nur Mittheilungen über deren Berufsthätigkeit enthalten, ob sie Geschichte u. Biographie, Briefe oder Autobiographien, Kunst, Religion oder was sonst noch betreffen—genau anzugeben. Aber ich getraue mich wirklich nicht darüber zu entscheiden, ob der zur Fertigung der Register erforderliche grosse Müh- u. Zeitaufwand mit dem Nutzen, den die Register gewähren, in nur annäherndem Verhältnisse steht; ich für meine Person glaube, nachdem ich mit den Registern wiederholte Proben vorgenommen, gefunden zu haben, dass der Verf. des Guten doch wohl zu viel gethan hat.

Plan eines Journal-Inhalts Verzeichniss.

Unter der Aufschrift "Eine neue Idee" findet sich im "Leipziger Korrespondenzblatt," Nr. 1, S. 2, folgender Aufsatz: Es handelt sich um die Herausgabe eines fortlaufenden Journal-Inhalts-Verzeichnisses. Wir besitzen...Bücher Kataloge—überall ist nur das abgeschlossene Buch registrirt, recensirt u., in übersichtlicher Weise, klassifizirt.—Sehr schön,—aber wo finden wir Nachweise über die zum Theil kostbaren Aufsätze, welche sich in den Revuen, Journalen etc.,

geradezu verkrümeln:... Gesetzt ein Gelehrter hat jahrelangen Fleiss einer Arbeit gewidmet, neue Quellen aufgedeckt, kurzum ein verdienstliches Werk geschaffen,—aber diesen u. jenen mehr oder weniger wesentlichen Punkt musste er unberücksichtigt lassen—es fehlten ihm die bezüglichen Hilfsmittel! Hätte er nur die u. die Nummer der u. der Zeitschrift zur Verfügung gehabt, so würde er proposito Glimmen u. schwaches Leuchten angetroffen haben, das er leicht zu hellem, erwärmendem u. klärendem Feuer anzufachen vermöchte! Wer in aller Welt hätte denn Zeit, all' die Bände, Hefte, Blätter u. Blättchen durchzustöbern, in denen der Stein der Weisen wie oft klar zu Tage liegt—oder vielleicht das in diesem Falle gleichwerthige Gegentheil! Diesem Uebelstande oder Manco glauben wir durch einen Anzeiger abhelfen zu können, der nach den Wissenschaften geordnet, mit oder ohne kritische Bemerkungen in gewissen Zwischenräumen... Auskunft ertheilt, was das ganze Heer von Zeitschriften an für das Individuum Interessantem bietet. Wie wird sich der Zeitschriften-Verleger zu dem Unternehmen stellen? Nun wir glauben. Er wird alle Hände dazu bieten, es zu verwirklichen, er kann ja nur Vortheil davon haben, wenn fortlaufend der Inhalt seines Werkes dem Publicum ad oculos demonstrirt wird; ganz abgesehen davon, dass das Journal-Inhalts-Verzeichniss eine absichtslose, doch nichtsdestoweniger heilsame Presspolizei auszuüben berufen ist, die jedem anständigen Verleger—persona gratissima sein wird. Und wer soll Käufer sein?—Unbesorgt! Bibliotheken, Lesehallen, Kaffeehäuser, Gelehrte, Bibliophilen, Lesezirkel; freilich: ein Gutes u. Ganzes muss geboten werden. [TH. ROTHER.]

Rr. Als vorstehender Artikel bereits gesetzt war, ging uns von Dr. Jul. Petzholdt, den wir um sein bekanntlich durchaus Kompetentes Votum gegangen haben, nachstehendes Schreiben zu, welches wir hier in extenso zur Kenntniss unserer Leser bringen. Freilich, darnach ist es schier zweifelhaft, ob wir auf die kecke Frage: Wer noch? aufrichtig "wir" antworten würden; jedenfalls gilt auch hier das alte gute Wort, erst wägen, dann wagen!—"Wie ehrenvoll es auch für mich ist, dass Sie das Vertrauen in mich setzen, die mir vorgelegte Frage über Ihre neue Idee mit Leichtigkeit beantworten zu können, so mag ich doch nicht leugnen, dass mich die mir abverlangte Antwort, die mir für meine Person gar nicht so leichter Art zu sein scheint, einigermaassen in Verlegenheit gesetzt hat. Ihre neue Idee eines "fortlaufenden Journal-Inhalts-Verzeichnisses"—es ist dabei freilich fraglich geblieben, ob dieses Verzeichniss sich nur auf Deutsche Journale beschränken, oder auf die ausländische Literatur auch mit erstrecken soll—halte ich an sich für sehr ansprechend, u., falls sie zur Ausführung gebracht werden könnte, für ausserordentlich nützlich. Aber ich mag nicht bergen, dass ich die Herstellung eines solchen Inhalts-Verzeichnisses (vorausgesetzt natürlich, dass davon kein irgendwie erhebliches Journal ausgeschlossen bleibt.) unter allen Umständen für, wenn nicht durchaus unausführbar, doch mit ausserordentlich grossen Schwierigkeiten verknüpft halten muss.

Wo wollen Sie das Material, d. h., den ganzen Vorrath der zu excerp-
irenden Journale beisammen finden? Keine Bibliothek verfügt über
einen solchen Vorrath, u. anzunehmen, dass die *sammtlichen Verleger*
von Journalen es in ihrem eigenen Interesse finden wurden, ihre Journale
zur Benutzung für das Inhalts-Verzeichniss zur Disposition zu stellen,
DURFTE, meiner unmaassgeblichen Ansicht nach, EIN FEHLSCHLUSS*
SEIN. Ich habe in dieser Sache einige Erfahrung u. glaube diese An-
nahme als *durchaus trügerisch bezeichnen* zu müssen. Aber selbst an-
genommen, dass es möglich sein würde, die zur Herstellung des In-
halts-Verzeichnisses erforderlichen Journale sämmtlich herbeizu-
schaffen, wo sollen die Leute dazu herkommen, welche nicht
blos Zeit genug haben, regelmässig die einlaufenden Journale zu
excipiren, sondern auch das Geschick besitzen, die Excerpte nach
Einer Schablone zu besorgen; denn Regelmässigkeit u. Uebereinstim-
mung der Excerpte sind durchaus unerlässliche Bedingungen jenes
Inhaltsverzeichnisses. Zudem dürfte den Leuten, auch wenn solche in
hinreichender Anzahl gefunden würden (dass ein Einziger die Ge-
schäfte bewältigen könnte, davon ist natürlich durchaus keine Rede).
als Entgeld für ihren Zeit- u. Müheaufwand schwerlich ein so hin-
reichendes Honorar geboten werden können, dass sie sich lange an
das Unternehmen nicht Schaden leiden sollte, ein Wechsel der Mit-
arbeiter möglichst vermieden werden. Wo sollte aber ein hohes, die
Mitarbeiter fesselndes Honorar herkommen? Ich möchte nicht so
unbesorgt auf eine derartig grosse Anzahl von Abnehmern des In-
halts-Verzeichnisses rechnen, dass durch deren Theilnahme die Zah-
lung eines hohen angemessenen Honorars ermöglicht werden könnte.
Die nicht unbedeutenden Druckherstellungskosten u. das Honorar
für die Mitarbeiter müssten—abgesehen von noch vielen anderen Aus-
gaben für Regie, Porto u. dergl.—den Herausgeber des Inhalts-Ver-
zeichnisses nöthigen, den Verkaufspreis des letzteren in einer Höhe
zu normiren, die von denen, die man im voraus u. unbesorgt als Käu-
fer annehmen zu dürfen glaubt, eine nicht unerhebliche Anzahl von
dem Ankaufe abschrecken würde. Unter so bewandten Umständen,
die, meiner Ansicht nach, hier in Betracht gezogen werden müssen,
glaube ich auf Ihre am Schlusse des Artikels aufgestellte Frage
“Wer noch? Wer nicht?” antworten zu dürfen. “Ich nicht!”

** Continued in Annual Index.*

NOTE. The "Annual Index" published by the undersigned, while it includes nearly all american and german literary periodicals, and several british (Belgravia, English, Gentleman's, Longman's, Macmillan's, etc.), has not been able (tho this is much wished by the compiler) to include the quarterly and monthly reviews, etc. Such a work, covering the time since the appearance of "Poole's Index" is much needed, and as the publication of the supplement to that work, announced by Mr. Poole, is indefinitely postponed, the compiler hopes his work will be found useful.

He specially hopes it may come into general use for a time, however soon it may be thrown aside in favor of a better work, in order that the system of indexing periodicals here used (for the first time, he believes), may be fairly tested. Tho the plan would not work when the contents of a large number of journals is to be indexed in detail, as in the "Annual Index," the compiler thinks it will be found convenient when the number is small. It not only has the merit of telling at a glance the date at which an article appeared, but also the advantage of giving the names of authors in alphabetical order, with a reference to each of their signed articles,—a feature which is not attempted in "Poole", and which often affords a much easier way of finding a particular article than hunting for it in a subject index. Nor is the advantage of giving the author *with* the subject entry thereby sacrificed.

ASSISTANT LIBRARIAN IN THE LIBRARY OF CONGRESS.

SECOND EDITION, REVISED, BUT NOT ENLARGED.

BANGOR, U. S. A.:

Q. P. INDEX, PUBLISHER.

1881.

The Key to the Index to Essays, as first printed, has been found inconvenient to consult: hence the following reprint.

The Q. P. Indexes: "Each of which," according to "The Nation," "is an apostle of the higher learning."--Of the **Index to Essays** (No. 13), Dr. S. A. Allibone says "the plan is excellent," and "The Oracle," (London), "It supplies a want that has long been felt and often expressed: and though the present production does not pretend to completeness, we perceive that the works included, some 700 or 800, have been well selected, giving a broad but desirable interpretation to the word 'Essays.' . . . Examination shows it to be invaluable."

--WITHIN the space of 56 pages, upwards of 2000 references are given to the most important essays. . . . The mode of arrangement is simple and the index will prove of great service to literary workers."--*The Bookseller* (London), 4, 10, 1883.--WE HAVE received No. 13 of the "Q. P. Indexes," by W. M. Griswold, A. B., published at Bangor, relating to history, biography, literature, society, and travel, contained in collections of essays. We have spoken before of the admirable work done in these indexes, and we only hope that the present issue may be so favorably received that the ENLARGED edition, conditional on public favor, may follow.--*Christian Register*, 13, 12, 1883. A SERIES of works for the projection and execution of which Mr. Griswold, who has made it his special business, deserves the thanks of every student and reader. The character of the present number of the series [INDEX TO ESSAYS] is fairly well represented by its title. There are hosts of articles of great value on particular subjects enclosed in volumes of essays and miscellaneous writings, which are practically inaccessible because the general title of the volume gives no clue to what is in it. The present index gives the key to the subjects within its scope as represented in 799 volumes by different authors. The publisher HOPES IN TIME TO IMPROVE UPON IT AND ENLARGE IT--that is, to bring other books into view.--*Popular Science Monthly*, Feb., 1884

A great work for readers and students, in enabling them to refer, at a minimum expenditure of time and trouble,
to multiform and extensive sources of information on almost every conceivable topic, has been accomplished in the pre-
paration of the so-called "Q. P. Indexes." By an ingenious though simple system of abbreviation and contraction, the
contents of each of these publications for a long series of years is so summarized in small space that it takes but a
moment to turn to everything that has been printed on any subject that has been discussed in their pages. WE DO NOT
SEE HOW THE WORK COULD BE BETTER DONE.—*Country Gentleman*.

The Q. P. Indexes : "Each of which," according to the INDEX to ESSAYS (No. 13), Dr. S. A. Allibone says "the want that has long been felt and often expressed ; and though the receive that the works included, some 700 or 800, have been well 'Essays.' . . Examination shows it to be invaluable."—*W* given to the most important essays. . . The mode of arranging literary workers."—*The Bookseller* (London), 4, 10, 1883. *Pr*

Some very quiet but most valuable work is being done in what are known as the "Q. P. Indexes." They are invaluable to every literary worker, and have gained approval abroad, the *Oxyc*, London, having lately given a full description of them : — "In America is published yearly an index to the principal magazines, from which you may learn, for instance, . . . Small marks show whether an article is a review, poetry, fiction, illustrated, a translation, or whether it may be characterized in half-a-dozen other different ways. . . Why does not one or another of those who are constantly asking us how an income may be made or added to, do a similar service for English magazine readers? Chief qualifications for the work are perseverance, accuracy, and that uncommon endowment, common sense. Let some one possessing these send to Bangor, Maine, U. S., for a copy of Q. P. Index's Annual for 1881 as a pattern, and then set to work on some English periodicals. Poole's Index to all periodical literature will not supersede such works as Q. P. Index's, *Our Continent*, 1, 11, 1882.

You are doing a good work for every library or professional man who has for years accumulated any of the leading
 periodicals in anything like completeness. In my own case, you have not only removed all temptation to dispose of a
 large collection of periodicals to the second-hand dealers, because there was so much labor in making them available, but
 you have placed in my way the temptation to complete some sets to which I have been a subscriber for years. — *Rev. E.*
S. Friesbee, President, Wallis College.

The ANNUAL INDEX (price, during year of issue, 25 cents) is a list of all the articles that appeared during the year in 23 different languages, and easily learned, so that, while reference is easy, the work is not (July, 1883.) "Invaluable. . . Work is done as on the Q. P. Index Annual for 1882 is at hand, bearing evidence of systematic indexing, with an ingenious plan of space-saving, which may be gained from the fact that no less than 23 of the leading journals are so compact in form that it can be kept even on an over-crowded shelf.

"The Indexes which I have received from you have saved me more time and labor than can be imagined. I would not be without them at any price."—*M. A. Sanders, Panucler Public Library.* "Such Indexes are just what I want."—*State of Michigan Librarian.* "They are simply invaluable."—*T. W. Higginson.* [The ANNUAL.] "Indispensable to everybody who makes use of current literature. The arrangement is so ingenious that the number and page of every publication that contains mention or discussion of the subject sought for are indicated at a glance."—*N. Y. World*, 14, 3, 1882. "They have multiplied many times the usefulness of our magazines."—*A. Tison, Librarian Olivet College.*
